The Issues of Money

A large portion of my clients come to me with some sort of money issue. It is irrelevant how much money they make as I have some millionaire clients as well as multimillion dollar companies who have challenges when it comes to money. It's the beliefs, fears, and memories of money that affect how you relate to and experience money.

I did a talk this week at The Holistic Chamber of Commerce of Lakeland sharing some insights from learning and teaching the Law of Attraction years ago and some of the challenges we all experience in one area or another in manifesting. That inspired me to address it here with you.

Money has always been a hot topic. But, in my work over the years as a spiritual healer, I have discovered there are many nuances influencing it. There are beliefs about the self, money, God and life affecting how easy it is to receive, keep, manage, and enjoy it. Both personal and ancestral karma can influence it. The ability to forgive self and others can limit money. The connection to God and the separation of God and the guilt that has been created can contribute to the way you receive money.

Often people pray for money, which is one of the statements Archangel Michael said in information I shared at the chamber event. "One of the most common prayers I hear, and we all hear, is that of the need for more money. Money is an issue for many of you whether you have it or not. Why is it so important to you all? Why do you feel such lack all the time, whether you have it or not? Because of your thoughts about it, your history of it, your responsibility over it. These things all come into play in your ability to manifest money effectively. You manifest money currently based on your thoughts and perspective on it. However, your point of view may be inaccurate if reviewed and discussed to determine the accuracy of your viewpoint."

So many elements go into the challenges of money. Outside forces such as darkness and the Illuminati are also culprits. I have cleared countless curses that have impacted people's finances. There are so many dynamics that affect someone's finances, it is sometimes amazing.

Clearing money is not always cut and dry because there may be layer upon layer of contributing factors. But, once released, the difference can be astounding. My relationship with money certainly changed over the years from clearing as it has the experience changed for many of my clients. Clearing money issues can make all the difference in the world.

On that note, Archangel Michael also addresses money in "Wisdom of the Guardian" along with specific tools at the back of the book to assist. There are more than a few blog posts from him that you can find on the site under the category of money, and the following is one example, which can lead you to the rest. You can also schedule time on the left to chat if you'd like to get an assessment of what is affecting your money situation specifically.

Wishing you financial freedom and a wonderful weekend.

Faithfully yours,
Joy

Let's get to know each other, the challenges you face and the solutions I provide. If there's a fit, we can decide together what options are best for you.

Many of you think if you had more money, magic would happen. That magic happens when you don't need money. Needing money means you lack money. Not needing money, means you have all the money in the world necessary for your needs. When you don't need something, you aren't coming from lack. When you come from lack, you are coming from need. There is a vicious cycle. Need begets lack, lack begets need.
